AN INITIATIVE OF THE GOVERNMENT OF SOUTH AUSTRALIA

Government of
South Australia

AN INTRODUCTION FROM

The recent end of production at General Motors Holden was a significant moment in South Australia's history – both economically and socially. It marked the end of the Playford era of industrialisation that has served our State well for many decades. Now, a new era of employment is upon us.

This new era, driven by technology and a more connected world, is causing major disruption to traditional industries. But while old industries wind down, new industries are emerging to take their place.

JOBEX showcases five growing sectors of the South Australian economy:

1. DEFENCE AND SHIPBUILDING;
2. RENEWABLE ENERGY AND MINING;
3. HEALTH AND BIOMEDICAL INDUSTRIES;
4. TOURISM, FOOD & WINE; AND
5. IT AND HI-TECH MANUFACTURING.

The jobs in these industries are here today, and they are growing.

South Australia won the largest tender in our nation's history, the Future Submarines contract. This project will require thousands of workers in manufacturing, design and other fields.

Our State's leadership in renewable energy has led to companies like Tesla, led by CEO Elon Musk, investing in the world's largest lithium ion battery, to be located near Jamestown. The world's largest solar thermal plant of its kind will be constructed near Port Augusta. These and other renewable energy projects will require a workforce equipped with new skills.

Adelaide is now the home of a world-leading biomedical precinct. This features the nation's most advanced hospital and the SA Health and Medical Research Institute, which will house Australia's only proton-therapy unit. The National Disability Insurance Scheme is a major social reform, and will also create approximately 6,000 jobs in our State.

More direct international flights into Adelaide means our tourism industry is booming. Planes are arriving loaded with tourists, and leaving with our premium food and wine destined for export markets like China.

And as old manufacturing winds down, South Australians will continue to make new and innovative products in a hi-tech manufacturing future. A new generation of coders will be required for IT and cyber security jobs.

JOBEX gives you the opportunity to speak to employers in these sectors and discover the jobs of the future. They are here today.

PREMIER JAY WEATHERILL

The South Australian Government is determined to help local companies innovate, become more entrepreneurial, diversify their business models and – above all – grow and expand.

We are committed to supporting our workers, helping you to prepare for your next job by offering targeted and focussed skills and training programs.

Together, we are making a transition to a modern industrial economy; one that is increasingly interconnected and globalised.

We are investing in future industries and future jobs.

Many of the world's leading companies are operating in South Australia across growth sectors such as defence, renewable energy and information communications technology.

Our thriving shipbuilding sector – especially through the Future Submarines program – is helping us forge links with other advanced, high-technology economies, such as France.

We've created the nation's first dedicated centre to grow the local space economy and create future hi-tech jobs.

It will drive space industry innovation, research and entrepreneurial development.

The emerging space industry, cyber security and autonomous systems will provide opportunities for our well-established research and development community.

We're the first State in Australia to invest in digital infrastructure with our new GigCity Adelaide network taking ultra-high-speed internet to innovation districts across Adelaide.

We are rethinking what a city can be and what it can achieve.

We are working with experts in technology, business and research to develop and support initiatives and programs that will entice and encourage people to choose South Australia as the place where ideas are developed, tested and reach their markets, locally and internationally.

Today, we offer you the chance to open the door to new career pathways and job opportunities in emerging industries in what is South Australia's largest employment and careers exhibition.

JOBEX is your chance to connect with the State's leading businesses across five emerging sectors: Defence and Shipbuilding, Health and Research, Energy and Mining, IT and Hi-Tech and Tourism, Food and Wine.

Whether you are an entrepreneur, graduate, apprentice, trainee, or job seeker, **JOBEX** is your ticket to new information and your next job.

HON KYAM MAHER MLC
MINISTER FOR MANUFACTURING AND INNOVATION

WELCOME TO JOBEX

A NEW GENERATION OF
JOBS IS BEING CREATED IN
SOUTH AUSTRALIA, AND
IT'S TIME TO BE PART OF IT.

JOBEX is South Australia's largest employment and careers exhibition, showcasing career pathways and job opportunities in emerging industries such as Defence and Shipbuilding, Health and Research, Energy and Mining, IT and Hi-Tech and Tourism, Food and Wine.

It's your chance to meet with over 120 of the State's leading businesses and learn about the job opportunities they can offer now and into the future.

Representatives from tertiary institutions including the University of South Australia, the University of Adelaide, Flinders University and TAFE SA will be available to guide you through how you can prepare for a job in one of these growth sectors.

Hear from industry thought leaders who will share their vision and insights for shaping South Australia's future.

You can also learn more about State Government services available for job seekers and search for job opportunities in the SA Public Sector.

Whether you're looking for a new job, considering a career change or want to learn about South Australia's emerging industries, you will find it all at **JOBEX**.

**JOBEX IS FREE, BUT YOU WILL NEED
TO REGISTER AT JOBEX.SA.GOV.AU**

20 NOV | PORT AUGUSTA

23 NOV | MURRAY BRIDGE

JOBEX

INDUSTRY PROFILE

ABOUT

Defence and Shipbuilding is a key industry for South Australia as we transition towards a hi-tech advanced manufacturing future.

South Australia will be home to an \$89 billion continuous build program of naval shipbuilding projects, including Australia's Future Submarines, Future Frigates and Offshore Patrol Vessels, which together are expected to create around 5,200 jobs by the mid-to-late-2020s, with many opportunities already emerging today.

South Australia is Australia's Defence State, with billions in defence projects underway, generating job opportunities across a range of professional and trade occupations, both as part of major construction projects, as well as in the associated supply chains, the broader defence sector, and in the fast-growing cyber security industry.

Find out about the opportunities emerging in the Defence and Shipbuilding sector when you visit us at JOBEX.

EXHIBITORS

JOBEX Adelaide will feature more than 20 of the State's leading Defence businesses including BAE Systems, Babcock, Boeing Defence Australia, Lockheed Martin and the Naval Group.

KEYNOTE SPEAKER

EMILIO DE STEFANO

*Chartered Professional Engineer
Emilio De Stefano is Director and Principal
of De Stefano & Co, a boutique management
and systems engineering consultancy.*

In 2014, Emilio De Stefano received an Industry Leaders Fund Grant to attend the prestigious Stanford Graduate School of Business in California's Silicon Valley. This experience saw him leave his six figure pay packet behind to become a full time entrepreneur.

Emilio was named the Defence Teaming Centre Young Achiever in 2010, the national BAE Systems Australia Early Career Engineer of the Year in 2011, and was recently recognised as a finalist in the 2017 South Australian Science Excellence Awards in the category of STEM Professional.

His career has taken him from multi-national corporates, to small-to-medium enterprises, all the way through to start-ups.

Emilio will share his innate understanding of what it takes to succeed in any environment when he speaks at JOBEX Murray Bridge on 23 November.

HEALTH + RESEARCH

ABOUT

The Health and Research industry is creating jobs in South Australia through a range of world-leading projects such as the Adelaide BioMed City, including the South Australian Health and Medical Research Institute (SAHMRI) and its proposed expansion SAHMRI 2, the brand-new Royal Adelaide Hospital – the world's most advanced hospital facility – and the roll-out of the National Disability Insurance Scheme (NDIS).

Up to 6,000 new jobs will be created across the State to support the NDIS in the Disability Services Sector, covering a wide range of positions, varying from support workers to IT workers, occupational therapists, physiotherapists, drivers, managers and many more.

South Australia also continues to emerge as a hub of advanced health industries, with a range of South Australian medical devices and technology, pharmaceutical and bio-tech companies growing rapidly on the back of international success. At the same time, more and more health businesses from interstate and overseas are discovering Adelaide as a health and research hub where they can thrive, creating highly skilled jobs through their investment and expansion in this key growth sector.

EXHIBITORS

JOBEX Adelaide will feature 24 of the State's leading businesses including SAHMRI, Bionomics, Micro-X, Calvary Wakefield and Ellex Medical Lasers from the Health and Research sector.

KEYNOTE SPEAKER

DR. LEANNA READ

Renowned biotechnology expert Dr. Leanna Read is South Australia's Chief Scientist and Chair of the South Australian Science Council.

A physiologist by training, Leanna has published over 90 scientific papers, was awarded an Honorary Doctorate from the University of South Australia and is a Fellow of the Australian Academy of Technological Sciences and Engineering.

She holds several board positions and has led a number of successful research and commercial ventures, including the Cooperative Research Centre for Tissue Growth and Repair, widely considered to be one of the most successful commercially focused CRCs.

She was named the 2006 South Australian of the Year (Science and Technology) and was the 2011 Central Region winner of the Ernst & Young Entrepreneur of the Year in the Technology Category.

Leanna will share her wealth of executive, board and investment experience in research-focussed businesses when she speaks at JOBEX Adelaide 10 November and Port Augusta 20 November.

INDUSTRY PROFILE

IT + HI-TECH

ABOUT

South Australia offers a fertile ecosystem for growing IT, creative and hi-tech enterprises within a culture of creativity, connectivity and collaboration. By positioning Adelaide as Australia's leading smart city, embracing the Internet revolution and supporting technology innovation, the opportunities for jobs in South Australia are limitless, and the most exciting applications are still to be imagined.

Game-changers such as the GigCity project and the vibrant Tonsley Innovation Precinct, as well as the presence of a range of industry leaders and cutting-edge educators make IT and Hi-Tech businesses thrive in South Australia, and render our State the nation's most advanced start-up environment.

Find out about career opportunities in IT and Hi-Tech at JOBEX.

EXHIBITORS

JOBEX Adelaide will feature over 25 of the State's leading IT and Hi-Tech businesses including QX Branch, Myriota, Sydac Australia, Mighty Kingdom Gaming, Maptek, Buddy Platform and Rising Sun Pictures.

KEYNOTE SPEAKER

TOM HAJDU

Tom Hajdu is the Chief Innovator of South Australia, responsible for innovation strategy for the South Australian economy, and the driving force behind Adelaide's success in becoming Australia's first gigabit city.

Tom is also CEO of Disrupter, his US-based strategic innovation company. Over several years, this company has developed a way to create deeper and more creative strategic technologies. Disrupter recently launched two companies: Umbilical, a software development company; and uNET, a new network system.

Through his career Tom has worked with top brands such as Microsoft and Ford, as well as in film and TV studios and best of breed advertising agencies worldwide.

Tom is Professor and Chair of Creative Technologies at the University of Adelaide, as well as Director of the Sia Furler Institute advocating innovation and entrepreneurship in the Faculty of Arts. He received a PhD and MFA degree from Princeton University and Presidential MBA from Pepperdine University.

Tom will share his insights with attendees when he speaks at JOBEX Adelaide 11 November and Port Augusta 20 November about a career that connects leadership, innovation and entrepreneurship.

ABOUT

South Australia is seizing new opportunities as the world pursues more efficient ways of living and working. Our State leads Australia in renewable energy sources such as wind and solar, and is developing internationally recognised expertise in water security and treatment, as well as waste management.

The State Government is investing in initiatives that will create new energy industry jobs here in South Australia supported by the \$550 million energy plan ensuring more of the State's power is sourced, generated and controlled in South Australia.

Because of this, it is estimated that 1,000 full-time jobs will be created through the construction of energy-related initiatives such as the world's largest lithium-ion battery, the new solar thermal power plant in Port Augusta and the new State-owned power station, with 100 further jobs through increased gas exploration.

This will build a sustainable and reliable energy network, and create more job opportunities for South Australians as the industry continues to grow.

Mining continues to be a major industry in South Australia, with new mining projects starting regularly. OZ Minerals recently announced a copper project at Carrapateena, which will create up to 1,000 new jobs in regional South Australia.

EXHIBITORS

JOBEX Adelaide will feature 24 of the State's leading Energy and Mining businesses including Neoen, Tesla, Solar Reserve, Santos, BHP and OZ Minerals.

PANEL DISCUSSION

JOBS IN SOUTH AUSTRALIA'S RENEWABLE ENERGY TRANSITION

11:30AM – 12:30PM

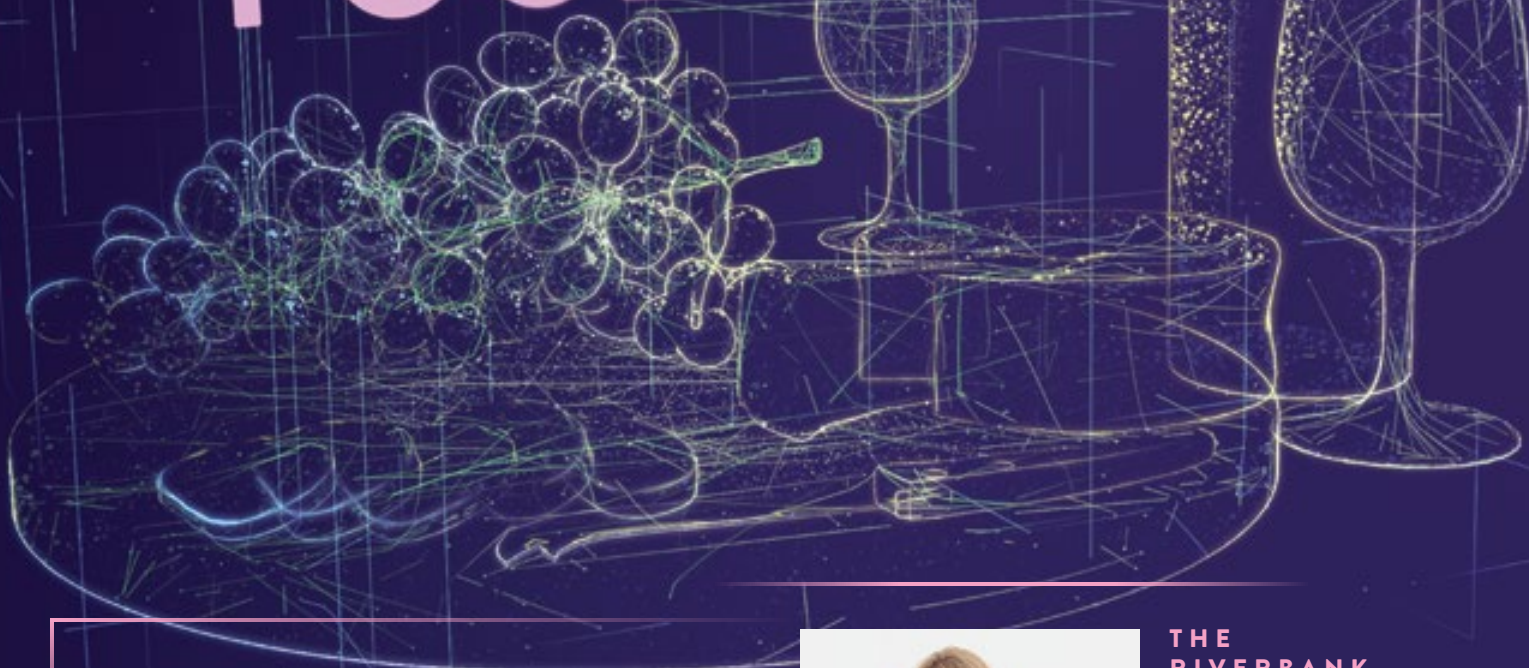

Friday 10 November 2017
Adelaide Convention Centre

Join Tesla's Mark Twidall and other panellists as they discuss how these projects will build a sustainable and reliable energy network, and create more job opportunities for South Australians as the industry expands.

ENERGY + MINING

INDUSTRY PROFILE

TOURISM, FOOD + WINE

ABOUT

By ranking South Australia fifth in a list of the top ten regions in the world to visit in 2017, Lonely Planet confirmed what locals have known for years – that South Australia is a great place to live, work and play.

The Tourism, Food and Wine industry will play a key role in transforming our economy. 4,000 new tourism jobs have already emerged between 2013 and 2015, with South Australia easily outperforming all other states and territories in tourism job growth, and breaking all records by achieving over \$1 billion of tourism expenditure earlier this year.

The world's demand for premium produce from a clean, green and safe environment continues to rise rapidly, creating vast opportunities for South Australia's food and beverage industries to leverage growing demand and expand. South Australia's brand is increasingly recognised as synonymous with food and wine of unparalleled quality across the globe. With demand soaring domestically and internationally, including in emerging markets across Asia, South Australia's food and wine sectors are uniquely well-placed to grow fast, creating more jobs for South Australians.

EXHIBITORS

JOBEX Adelaide will feature over 20 of the State's leading Tourism, Food and Wine businesses including Thomas Foods, Costa Group, SkyCity Adelaide Casino, Accolade Wines, Elders, Vitterra, Zoos SA, and 1834 Hotels Group.

THE RIVERBANK KITCHEN

ADELAIDE CONVENTION CENTRE

*Pictured:
Catherine Sayer*

Come along to the Riverbank Kitchen at the Adelaide Convention Centre to hear panel discussions with speakers such as Catherine Sayer, Chief Executive Officer of Food South Australia Inc., the State's peak industry body for food manufacturers and producers; Kris Lloyd, Chief Executive and Head Cheesemaker at Woodside Cheese Wrights; Simon Bryant, perhaps most well known as the Chef from the ABC Television's *The Cook and the Chef*; and Paul Henry, one of Australia's leading wine marketers.

Don't miss your chance to hear the Founder and Director of Boost Juice Bars and Retail Zoo, Investor on the Network Ten's *Shark Tank*, Janine Allis share her inspiring journey to success at JOBEX Adelaide on 10 November.

KEYNOTE SPEAKERS

MS JANINE ALLIS

Founder and Director of Boost Juice Bars and Retail Zoo. Investor on Network Ten's Shark Tank.

Janine Allis is not your everyday self-made businesswoman. She grew her juice and smoothie empire from her kitchen bench to an international success story (Boost Juice Bars are now in 13 countries with over 400 stores).

For most people, the formula for achieving success in life is to study hard, get good grades, get into a good business school or university and work your way up the ladder; Janine's way was to work three jobs so she could fulfill her dream of travelling the world and letting life take her on a journey. This adventure took Janine around the world, until as a young mum and looking for a new adventure back in Australia, Janine decided to invest in her passion for healthy snacks on the run. Fast forward fifteen years and that passion has translated into over \$2 billion in global sales.

Janine has been presented numerous retail, franchise and business awards including (just to name a few) Telstra Business Woman of the Year, Amex Franchiser of the Year, Awarded Exporter of the Year and BRW named her one of fifteen people that changed the way Australia does business in the last 35 years. She was inducted into the Australian Business Women Hall of Fame, and ranked at #7 on Smart Company's Top 30 Australian Female Entrepreneurs List.

You can hear more about Janine's inspirational journey to success when she takes the stage at JOBEX Adelaide on Friday 10 November.

DR JORDAN NGUYEN

Founder, Psykinetic

Acclaimed thought leader Dr Jordan Nguyen is founder of Psykinetic, where he designs life-changing technologies focusing on intelligent, futuristic and inclusive technology. His ability to translate highly technical concepts and future trends into clear and concise content is reflected in his award-winning documentary, 'Becoming Superhuman' which won a Eureka Prize for Science Journalism. Jordan's passion for technology and the power of the human mind has seen him share his thoughts with audiences across a range of media.

He is a NSW Finalist for Australian of the Year 2017 and has developed a mind-controlled smart wheelchair for people with high-level physical disability.

As a keynote speaker at JOBEX Adelaide, you can catch Jordan on Friday 10 November as he shares his unique ability to inspire people.

Ms Janine Allis and Dr Jordan Nguyen appear by arrangement with Saxton Speakers Bureau

TICKETING + VENUES

TICKETING

JOBEX events are free, however you will need to register to receive your e-ticket. To register, go to JOBEX.SA.GOV.AU

If you are attending the JOBEX Adelaide event you will receive FREE Adelaide Metro public transport (train, tram and bus) on 10 and 11 November 2017 if you show your e-ticket.

**REGISTER NOW FOR
FREE ENTRY AT
JOBEX.SA.GOV.AU**

JOBEX ADELAIDE

**Adelaide
Convention
Centre**
Entry from
North Tce,
Adelaide
10 & 11 November
10am – 5pm

PUBLIC TRANSPORT

Show your JOBEX e-ticket to receive FREE Adelaide Metro public transport (train, tram and bus) on 10 and 11 November 2017.

The Adelaide Railway Station is conveniently located a short 2 minute walk from the Adelaide Convention Centre, and the tram stop is just in front of the Railway Station with many buses stopping nearby.

Taxis operate in the Adelaide metropolitan area and ranks are located on North Terrace and Morphett Bridge, right on the doorstep of the Central and West Buildings.

The free City Connector bus is an easy way of navigating around Adelaide; look out for bus 98C or 98A.

Adelaide is great to tour by bike as well. The Adelaide Convention Centre is a designated pick up and drop off point for Adelaide Free Bikes – an initiative run by the Adelaide City Council.

PARKING

If you are driving to the Adelaide Convention Centre, there are two undercover car parking options with the North Terrace and the Riverbank car parks.

Both are located directly under the Adelaide Convention Centre and are open 24 hours a day, 7 days a week.

Clearance is 2.0 metres and automated payment stations accept credit/debit cards (1.5% surcharge for Visa, Mastercard, Diners and Amex). Both car parks are fitted with video surveillance camera systems and security patrols these areas.

DISABILITY ACCESS

Access and facilities for people with disabilities are provided throughout the Centre. All car parks and buildings are wheelchair accessible.

Due to the redevelopment construction works, some parts of the carparks are harder to access at the moment – we recommend using the North Terrace carpark rather than Riverbank, as North Terrace has disability parking close to the exit and the lifts. Maximum height is 2.0 meters.

JOBEX PORT AUGUSTA

Central Oval
10 Augusta Tce
Port Augusta
20 November
10am – 7pm

PUBLIC TRANSPORT

Buses operate within Port Augusta and Stirling North. Taxis operate within Port Augusta and can drop off within 60m of the front door. For the JOBEX event, a temporary taxi rank will be located in the Southern Car Park.

PARKING

If you are driving to Central Oval, there are two car parks located on the North side and South side of the facility.

DISABILITY ACCESS

Access and facilities for people with disabilities are provided throughout the facility. All car parks are wheelchair accessible.

JOBEX MURRAY BRIDGE

Unity College
45 Owl Drive
Murray Bridge
23 November
10am – 7pm

PUBLIC TRANSPORT

LinkSA operates a service which comes through the College in the morning and afternoon – primarily to service student travel. They do offer a “Dial a ride” transport system. Please contact LinkSA on (08) 8532 2633 or visit their website for further details.

PARKING

If you are driving to Unity College, there is a car park for visitors located off of Owl Drive. Please refer to the campus map for further information.

DISABILITY ACCESS

Access and facilities for people with disabilities are provided throughout the Stadium and Steeple.
