

NAVY THE TEAM WORKS

On the surface, Submariners are just normal everyday people. They enjoy a healthy work/life balance, get to utilise the amazing facilities on base like the private cinema or gym and many live off base in the suburbs with their families.

But below the surface, they are elite men and women who play an integral part in Australia's defence capabilities. As a Submariner, you'll get to experience unique adventures whilst working inside a state-of-the-art vessel. It takes a unique individual to be able to perform at these depths, but it's a position that will reward you in ways you never knew possible.

IF YOU'RE LOOKING FOR A CAREER THAT CHALLENGES YOUR WITS, INTELLIGENCE AND RESILIENCE; TURN THE PAGE OVER TO LEARN ABOUT THE KEY ROLES THAT ARE AVAILABLE.

GO BENEATH THE SURFACE

KEY ROLES AVAILABLE:

MARINE ENGINEER OFFICER SUBMARINER

Not only will you direct a skilled and determined team, but you'll also be the expert responsible for all of the advanced engineering systems on board the submarine.

ELECTRONICS ENGINEER OFFICER SUBMARINER

Responsibility for the combat systems and defence capabilities of one of the Navy's leading assets is all yours. Here you'll test your engineering and leadership skills in an ever-evolving role.

MARINE TECHNICIAN SUBMARINER

Specialise in the operation and monitoring of a wide range of equipment on board the submarine. As a highly trained technician, you are responsible for keeping the team moving by ensuring all mechanical and electrical systems are operating at peak capacity.

COMMUNICATION AND INFORMATION SYSTEMS SUBMARINER

When you're performing complex missions under the ocean, communication is everything. Your job is to make sure the Navy's highly advanced communications systems are constantly enabling essential information to get to where it needs to go.

MARITIME WARFARE OFFICER SUBMARINER

For those after the ultimate challenge, these are the only officers who can gain command of a Navy submarine. It is a demanding job, yet the responsibility is equalled by the respect gained in this rewarding career.

ELECTRONIC WARFARE SUBMARINER

In this role you are the 'eyes' of the submarine. By using highly sensitive and specialised equipment, you'll intercept and analyse electromagnetic emissions. The team relies on you to determine what out there is friendly or threatening.

ELECTRONICS TECHNICIAN SUBMARINER

Operate and maintain all electronic combat systems, from surveillance and navigation to torpedoes and missiles. Your work will mean that the submarine is constantly ready to defend our oceans.

ACOUSTIC WARFARE ANALYST SUBMARINER

In one of the most advanced roles on board, you'll be responsible for the detection and operation of the submarine's sonar and acoustic sensors. Your skills will be critical in helping your team evade threats or increase tactical advantage over contacts.

FIND OUT WHAT GOES ON INSIDE A COLLINS CLASS SUBMARINE

Dive below the surface for a unique view of the inner workings of the Collins Class Submarine. Complete real-life missions and get a taste of what life's like beneath the surface. To see what it's like to be a Submariner, go to defencejobs.gov.au/submariners
