## Bright Sparks events and activities

There's something for every curious mind! Bright Sparks Science Club hold events on weekends, school holidays and some weeknights. Learn and be inspired by activities such as:

- Spectacular science shows
- Robotics and electronics workshops
- Behind the scenes tours of Adelaide landmarks and facilities
- Hands on experiments in forensic science
- Astronomy viewing and planetarium visits
- Wildlife experiences
- Field trips
- Science skills workshops

Bookings are essential for all events, including free events. There is a cost for some events to cover the costs of presenters, venue hire fees and resources.

## Bright Sparks membership

Membership to the Bright Sparks Science Club is a great value with a family membership available for multiple children.

The 12-month membership can be purchased at any time throughout the year. For existing members, we will send a reminder email and SMS one month before your membership is due for renewal.

### Membership packages

**Family with one child** - \$55 for 12 months

**Family with 2 or more children** - \$75 for 12 months

Bright Sparks is an approved [Children's University Australia](https://www.adelaide.edu.au/childrensuniversity/) (CUA) learning destination. Children enrolled in CUA receive discount on ticketed Bright Sparks events.

Children cannot aspire to what they don't know, the aim of CUA is to encourage children aged between 7-14 years to try new experiences outside of school learning activities and recognise their achievements through the award of formal certificates. Currently CUA membership is based around a child's school and the school has to be registered with CUA for the child to be able to participate. <https://www.adelaide.edu.au/childrensuniversity/>
