

KAPUNDA *High School*

I began teaching at KHS in 1985, having previously taught at Kimba Area School on the Eyre Peninsula for eight years. I taught Design and Technology and in the early years, I also taught some Science and Maths to years 8 and 9. Further down the track, I also taught some Agriculture Studies, where my year 8 classes grew enough vegetables to supply the local Foodland Store. Over the years, many more students chose Design and Technology, so I only taught this subject.

I was invited to join OH & S Reference Group for the Education Dept. to represent Design and Technology teachers across the State for about five years. I was the OH & S Representative at KHS until two years ago.

I became the Bus Coordinator about 15 years ago, which involved liaising with parents, students and the Dept., as well as organising bus routes throughout the district. Over the 33 years at KHS, I have had the pleasure to work with some excellent and supportive colleagues. I have taught two generations of students over the years and it has been great to see how well these young adults do after KHS.

I have really enjoyed my time at KHS and have fond memories, so many thanks and hope to see you around in the future.

Neville Sloper (1985 – 2018)
