OUR CEO'S STATEMENT

According to a recent study completed by Youth Leadership Academy Australia, 85% of teenagers feel that the education system isn't doing enough to prepare them for life after school.

That's where we come in. My name is Wil Massara and I founded Youth Leadership Academy Australia with the mission of building a positively sustainable future through youth empowerment.

You are probably reading this for a number of different reasons, whether you are a parent, teacher or student. But we are united by the same shared passion to positively impact the future of our youth and our world.

As a 17-year-old, I know the struggles we as teens face, from bullying to the lack of motivation which is why we aim to build an incredible network of like-minded strong young leaders supporting other youth in their leadership journey.

Each and every student has the right to realise their potential and know that their age does not determine their ability to achieve extraordinary things.

Your commitment to our future is what inspires us.

Kindest Regards,

Wil Massara

CEO & Founder, Youth Leadership Academy Australia

ABOUT US

our story

Youth Leadership Academy Australia hosted our first ever State Youth Leadership Conference in 2018 with only 65 students. Since then we have grown our conferences and introduced school leadership programs across Australia having a positive impact on over 1000 young people.

our mission & vision

Youth Leadership Academy Australia was formed to build a positively sustainable future by equipping the youth of today with the skills to be leaders tomorrow. We empower students to become engaged with their school and community and use their voice to create positive change.

85% of students leave school feeling unprepared for the future. Through our events and programs, we are determined to build a platform of incredible youth who have the energy to inspire others. Together as a team, we want to make an impact on not only tomorrow but for decades to come.
